

Snowman Picture Frame

Materials Needed:

- * [Pacon® Foam Sheets](#) – 2 white, 1 each orange, green
- * [Pacon® Stretchy Illusion Cord](#)
- * Hand punch – 1/8" circle
- * 2 Black [Pacon® Buttons](#) – 1/2" diameter
- * [Pacon® Jingle Bells](#) – 1/2" diameter
- * [Pacon® Pony/Crow Beads](#) – 4 each Green, White, Red
- * Scissors, Glue, Black Marker and Pencil

Instructions:

1. Trace and Cut patterns from Foam Sheets. Cut two snowmen from white foam, cut two mittens from green, and cut one nose from the orange foam. Cut an opening for a photo in one of the snowmen shapes. Using a black marker, draw details on face, nose and mittens.

2. Punch holes in both snowmen shapes as shown on patterns.

3. Put It Together: Put snowmen shapes together, aligning holes. Thread one end of the Illusion Cord through both holes at starting point shown on pattern. Be sure to leave a small tail of craft lace for knotting the ends once you complete stitching. Continue sewing the two snowmen together until you reach the right side. Once you reach the right side, only stitch through the top snowman. (You want to leave an opening to slide a photo in between the two snowmen.) When you reach the starting point again, tie ends of craft lace together to secure on back.

4. Glue buttons to the face for eyes. Glue the nose and mittens in place. Let dry.

5. Make It Jingle: Wrap a piece of red craft lace around neck. Knot together on one side. String Pony/Crow Beads in alternating colors on each end of red craft lace. Tie one jingle bell below the pony beads. Knot ends of red craft lace to secure.
